steelseries NP+

steelseries
professional gaming gear

Product description

The SteelSeries NP+ is created from high density compressed textile fibers, resulting in a unique rough glide and feeling of the surface. The compressed fibers add stain and water resistance making it easy to clean off most liquids. The rough glide and higher friction is unlike any other surface from SteelSeries and is specifically targeted for gamers with preferences for medium to rough glide. The SteelSeries NP+ features a specially designed non-slip rubber base which provides a firm grip and prevents the pad from sliding no matter what surface it's placed on.

Special features

* Compressed fiber with rubber base
* Pressure compression surface treatment
* XXL sized
* Rough Glide

Availability date

February 2010

Part number

63028

Package contents

Mouse pad

Technical specifications

Dimensions: 450 x 400 x 4 mm / 17.7 x 15.7 x 0.16 in

System requirements

Gaming grade ball, laser and optical mice.
